Facility:

# HEAD CIRCUMFERENCE

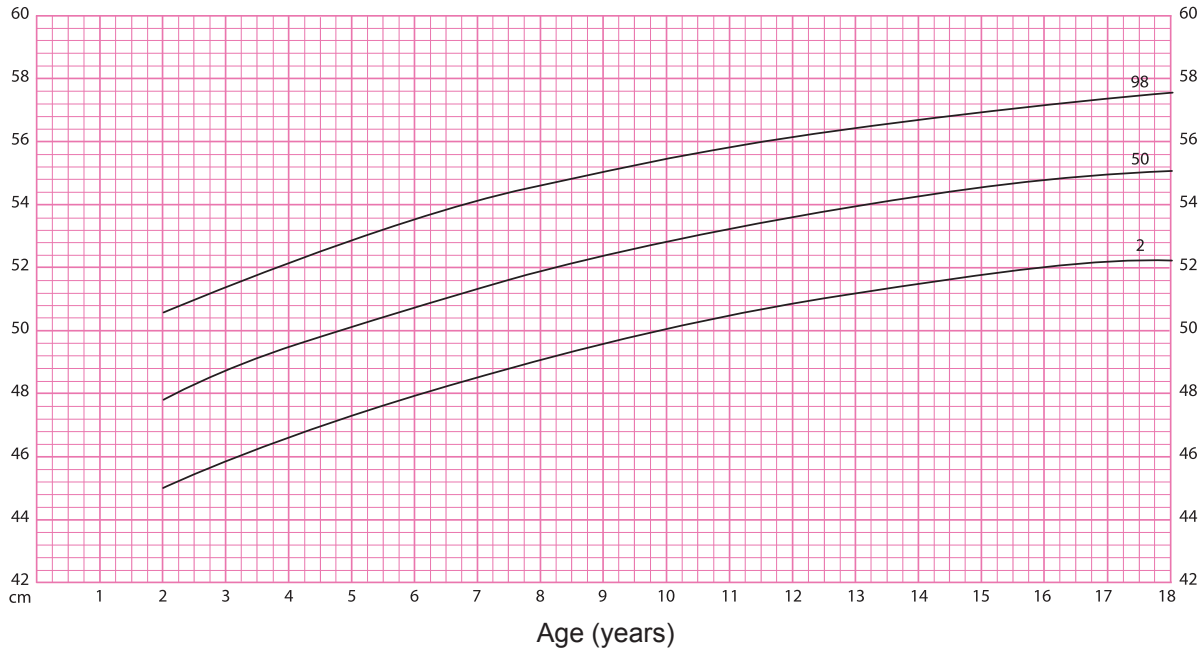

## Girls 2 – 18 years

Endorsed by **A**ustralasian **P**aediatric **E**ndocrine **G**roup

### Head Circumference

**Measuring Technique:** The tape should be placed over the eyebrows, above the ears and over the most prominent part of the occiput taking a direct route. A paper tape is preferable to plastic, which stretches unacceptably under tension.

The maximum measurement should be recorded to the nearest 0.1 cm.

Data Source: 2-5 yr: Jones, D. L. 1973, *NSW Health Communication Publication*. 5-18 yr: Nelhaus, G. 1968, *Pediatrics*, 41:106-114.
